			-----EXAMPLE-----		
	4/28/18	NV600	1:15.000 (75 sec)	1:18.200 (78.2 sec)	Dry

Example:

Lap times can be found in results on Track Intelligence (<https://trackintel.com/ti/omrra/>)

- NV600 fastest lap time in a race: 1:15.000 (75 seconds)
- 600SS winner best lap time in same weekend: 1:08.00 (68 seconds)

$$(68 \text{ seconds}) \times (1.15) = 78.2 \text{ seconds (1:18.200)}$$

Conclusion: NV600 Lap time is lower than 78.2 seconds so this is qualifying time for graduation.

To graduate from Novice to Expert:

1. Complete six OMRRA races in a row without crashing, and without negative observations from Officials regarding on-track safety. To count as "complete" the Novice must finish at least 75% of the event distance.
2. Meet graduating time in those races, two of which may be rain races in which graduating time is not considered. Dry race graduation time: best lap within 115% of the most recent dry race best lap of the Expert winner for the class into which the Novice's bike primarily fits (ex: Yamaha R6 = 600 Supersport).
3. Perform eight hours of OMRRA Volunteer Time.
4. Fill out and turn in a Novice Racer Graduation Form, documenting the above.
